

MEDICAL SPECIAL SERVICES

BROCHURE

INTRODUCTION

WHAT WE DO?

We provide medical services with an approach to carrying out all stages from designing the clinic to equipping it, deploying technology and providing services worldwide. Wherever you are in the world, you can cooperate and invest in the creation of the medical centers listed in this brochure. In addition to providing advanced medical services in your location, you can benefit from the high profits of this investment.

WHAT WE OFFER?

There are two main models for you to invest in our medical service projects, such as:

1. Investment in the form of financing
2. Building acquisition or provision

WHAT YOU GAIN?

Given the high quality of services provided in our centers, the investment will be highly profitable, return on investment in a short time and continuous profit.

INFERTILITY TREATMENT CENTER

Infertility Treatment Center

The super-specialized center for infertility treatment and reproductive health

- One of the most important factors in creating client satisfaction as well as creating quality in the work process is comprehensiveness in providing services which is our profession
- Infertility Center with specialized clinics, equipped operating rooms, beds, advanced medical genetics, pathobiology and independent imaging laboratories
- We provide one of the highest fertility rate among all infertility centers in the world
- Using of the most up-to-date equipment in the departments of gynecology, andrology, operating room and radiology, which directly affects the success of IVF procedures
- Establish a quality control and quality assurance system to minimize medical errors, correct problems, and standardize guidelines

The vision of the architecture in the building of our centers is to avoid facing the common sense of doubt and anxiety in many medical centers

Creating a visually stress-free environment is one of the effective factors during infertility treatment. For this reason, our centers are designed and built with the view of a hospital and respecting the condition of the patients

Infertility Center buildings are completely smart buildings, many of its installation and equipment parameters are controlled under the BMS system

Our Infertility Centers are proud of their treatment team, which are the best experts in the field of infertility treatment and pregnancy health in the world with a brilliant moral and scientific record.

Our team continuously cooperates with each other in order to provide better services for each of the clients, so that during the daily conferences, the treating doctor uses the valuable tips of other doctors, embryologists, and nurses to find the most suitable treatment method.

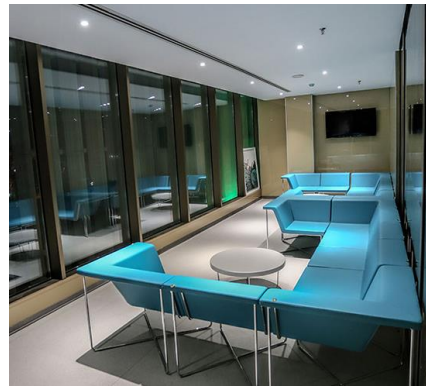

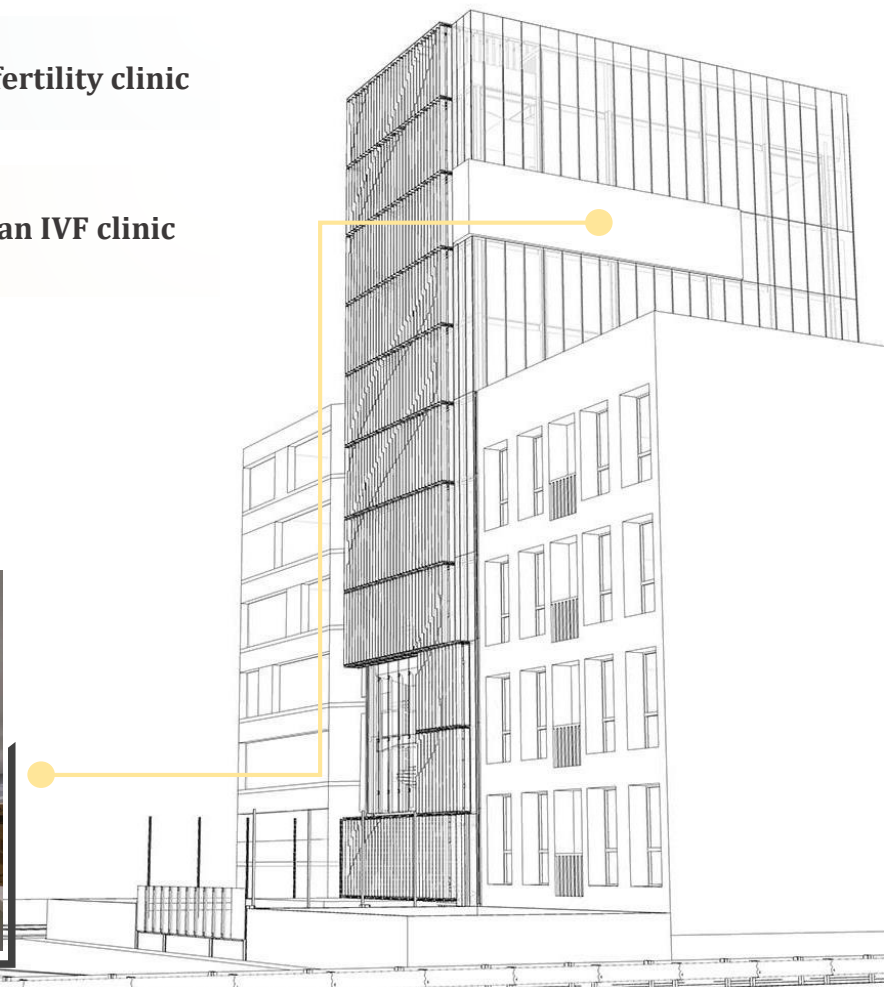

Our Infertility Centers have the most advanced medical equipment among infertility treatment and pregnancy health centers in the world

Our team provide all you need for an advanced and well designed infertility clinic

If it is just a land, we will design, construct the building and develop an IVF clinic
